

Industry 4.0 is the current industrial transformation with automation, data exchanges, cloud, cyber-physical system, Big Data, and automomous industrial techniques.

Our factory specializes in providing circuit protection with high reliability to Industrial, Transportation, and Medical markets under harsh and critical environment.

With the emerging trends of automation, electrification and digitalization of industrial technology, such as facility monioring system, digital power supply, intergrated securty system and internet connectivity. RFE solution meets industrial standard and offer reliable circuit protection for these industrial application

Feature

Resettable overcurrent circuit protection
RoHS Compliance, Lead-Free and Halogent-Free (HF)
Resistance range binned and sorted available
Function-oriented design (High hold current/Fast trip time /High Ambient Temperature/High Rated Voltage Current)

Application

Automation & Control System,
Industrial Machinery, Power Supply,
Security Surveillance Semiconductor
Equipment, Fleet Control System
Medical Equipment
